

Regional High Risk Pathways

MAJOR ROADS			
Name	LGA's	High risk weeds present	Significant Assets
M1 Motorway	Hornsby, Ku-ring-gai	Boneseed, Coolatai Grass Potential to spread weeds in and out of Sydney	Ku-ring-gai Chase National Park, Berowra Valley Regional Park, Muogamarra Nature Reserve
Pacific Highway	Hornsby, Ku-ring-gai	Boneseed, Coolatai Grass Potential to spread weeds in and out of Sydney	Ku-ring-gai Chase National Park, Berowra Valley Regional Park, Muogamarra Nature Reserve.
Mona Vale Rd	Ku-ring-gai, Warringah, Pittwater	Tussock Paspalum, Pampas Grass	Garigal National Park, Ku-ring-gai Chase National Park and Dalrymple-Hay Nature Reserve, NPWS critical threatened species conservation site and biodiversity sites
M2 Motorway	Hornsby, Ryde, Ku-ring-gai, The Hills.	Boneseed, Tussock Paspalum, Pampas Grass, Ludwigia	Lane Cove National Park, Bidjigal Reserve, NPWS critical threatened species conservation site and biodiversity sites.
M4 Motorway	Canada Bay, Strathfield, Auburn, Parramatta, Blacktown, Penrith	Asparagus falcatus, Boneseed, Bitou Bush, Coolatai Grass, Pampas grass Potential to spread weeds in and out of Sydney	Prospect Nature Reserve. Sydney Olympic Parklands. Eradication target for Sydney: Asparagus falcatus in road corridor at Bill Boyce Reserve
Princes Highway	Sutherland, Marrickville, Canterbury, Rockdale	Boneseed, Pampas Grass Potential to spread weeds in and out of Sydney	Royal National Park, Heathcote National Park
M5 South Motorway / Hume Highway	Strathfield, Bankstown, Liverpool, Campbelltown, Wollondilly	African Olive, Serrated Tussock, Ludwigia sp, Alligator Weed Potential to spread weeds in and out of Sydney	Agricultural land, Council reserves with Endangered Ecological Communities, *biodiversity site
M7 Motorway	The Hills, Blacktown, Liverpool, Fairfield	Boneseed, Coolatai Grass, Ludwigia sp. Potential to spread weeds within and outside of Sydney	Western Sydney Regional Park, *biodiversity sites

MAJOR ROADS			
Name	LGA's	High risk weeds present	Significant Assets
Windsor Road	The Hills, Blacktown, Hawkesbury	Boneseed, Potential to spread weeds within and outside of Sydney	
Northern Road	Hawkesbury, Penrith, Liverpool, Camden,	Bitou Bush, Chilean Needle Grass Potential to spread weeds within and outside of Sydney	
Putty Road	Hawkesbury	Senegal Tea, Coolatai Grass Potential to spread weeds in and out of Sydney	Agricultural, Wollemi NP, Yengo NP
Bells Line of Road	Hawkesbury	Boneseed Potential to spread weeds in and out of Sydney	Agricultural, Wollemi NP, Blue Mountains NP
Great Western Highway	Blue Mountains, Penrith, Blacktown	Boneseed, Bitou Bush, Broom Potential to spread weeds in and out of Sydney	Blue Mountains World Heritage Area

OTHER ROADS – Medium priority at sub-regional level			
Name	LGA's	High risk weeds present	Significant Assets
Centenary Drive	Strathfield	Celtis, Lantana, Privet, Boneseed, Onion Weed. Potential for new invasive species coming into Sydney - vehicles coming in and out of Sydney Markets (Flemington)	
Homebush Bay Drive	Strathfield, Canada Bay	Potential for new invasive species coming into Sydney - vehicles coming in and out of Sydney Markets (Flemington)	
Delhi Road	Ryde, Ku-ring-gai, Willoughby	Tussock Paspalum, Pampas Grass.	Road traverses high conservation areas.
Lady Game Drive	Ku-ring-gai, Ryde	Coolatai, Ludwigia Peruviana	

OTHER ROADS – Medium priority at sub-regional level			
Name	LGA's	High risk weeds present	Significant Assets
Comenara Parkway	Ku-ring-gai	Tussock Paspalum, Pampas Grass	
Wakehurst Parkway	Warringah, Manly	Tussock Paspalum	Road traverses high conservation areas.
Pittwater Rd	Hunters Hill		Riparian corridors, EECs and Lane Cove NP
Epping Road	Lane Cove		Lane Cove National Park
Blacktown / Richmond Roads	Blacktown, Hawkesbury	Boneseed Potential to spread weeds with and outside of Sydney	Windsor Downs Conservation area, Castlereagh NR, Western Sydney Parklands
General Holmes / Southern Cross Drive	Botany Bay, Rockdale	Connects to Port Botany container terminal	
Foreshore Drive	Botany Bay	Connects to Port Botany container terminal	
Heathcote Road	Sutherland, Liverpool	Boneseed containment line. Pampas Grass Potential to spread weeds within and outside of Sydney	Heathcote National Park, Defence land, Lucas Heights Conservation Area and the road traverses high conservation areas.
Alfords Point Road	Sutherland, Bankstown	Boneseed, Pampas Grass Potential to spread weeds within and outside of Sydney	Georges River National Park and the road traverses high conservation areas.
New Illawarra Road	Sutherland	Boneseed, Pampas Grass Potential to spread weeds within and outside of Sydney	Road traverses high conservation areas.
Henry Lawson Drive	Bankstown	Potential to spread weeds within and outside of Sydney	Georges River riparian zone, various parks and reserves
Old Hume H'way	Camden, Wollondilly		

OTHER ROADS – Medium priority at sub-regional level			
Name	LGA's	High risk weeds present	Significant Assets
Picton Road	Wollondilly		High conservation area, Sydney water catchment area, transport corridor between inland & coast
Narellan Road	Campbelltown, Camden	Potential to spread weeds within and outside of Sydney. Route used to access development sites, connects to Hume Hwy	Mt Annan Botanic Garden
Bulli / Appin Road	Wollondilly		High conservation area, Sydney water catchment area, transport corridor between inland & coast
Silverdale Road / Montpellier Drive	Wollondilly	Western containment of African Olive and Lantana	

RAIL CORRIDORS			
Name	LGA's	High risk weeds present	Significant Assets
Various section of Sydney Trains rail network	Numerous	Boneseed, Bitou Bush, Broome, Acacia saligna, Groundsel bush (Northern line)	Various points where rail corridor intersects bushland and significant areas. Blue Mountains World Heritage Area, National Parks, water catchments, s.132 scientific licence (116 sensitive sites)
Metropolitan Goods Rail Line	Randwick, Botany Bay, Marrickville, Canterbury, Bankstown, Strathfield,	Freight rail line that links Port Botany to Sydney Markets (Flemington). Potential for spread of new/existing invasive species.	
Light Rail extension	Marrickville, Leichhardt		Greenway

WATERWAYS			
Name	LGA's	High risk weeds present	Significant Assets
Devlins Creek	Hornsby, Ryde	Ludwigia species (<i>L.longifolia, peruviana, repens</i>)	
Lane Cove River	Hornsby, Ku-ring-gai, Ryde, Lane Cove, Hunters Hill	Alligator Weed	
Stringybark Creek	Lane Cove	Alligator Weed	
Parramatta River & tributaries	Hunters Hill, Parramatta, Hills, Ryde	Kidney Leaf mud plantain, ludwigia sp. Alligator weed, salvinia, water hyacinth	Parramatta Park, Lake Parramatta, riparian corridors, EEC's.
Duck River	Auburn		
Haslams Creek	Auburn	Alligator weed	Sydney Olympic Park
Georges River and tributaries	Liverpool, Bankstown, Campbelltown, Sutherland	Alligator weed, ludwigia, Boneseed	Georges River National Park, EEC's and high conservation areas
Cooks River	Strathfield, Marrickville, Rockdale, Canterbury		Various parks and reserves along riparian zone
Wolli Creek	Canterbury, Rockdale, Marrickville	Corky passionflower	Various parks and reserves along riparian zone
Botany Wetlands	Botany Bay		Proximity to container terminal and goods line (rail)
Kemps Creek	Liverpool, Camden	Alligator Weed	Flows to high conservation area
Woranora River	Sutherland	Alligator weed, ludwigia, boneseed	Heathcote National Park, EEC's and high conservation areas
Port Hacking River and tributaries	Sutherland	Senegal tea, Ludwigia, Boneseed, Pampas Grass	Royal National Park, EEC's, high conservation areas
Eastern / South Creek	Camden, Liverpool, Blacktown, Penrith, Hawkesbury	Alligator Weed, salvinia, Water Hyacinth, Ludwigia sp.	Agricultural, EEC's
Wollondilly River	Wollondilly	Alligator Weed	
Nepean River	Wollondilly, Camden, Campbelltown, Liverpool, Penrith, Hawkesbury	Alligator Weed, Kudzu, Salvinia, Water Hyacinth, Ludwigia sp.	Blue Mountains NP, EEC's

WATERWAYS			
Name	LGA's	High risk weeds present	Significant Assets
Hawkesbury River	Hawkesbury, Hills	Alligator Weed, Senegal tea, Salvinia, Water Hyacinth, Ludwigia sp., Black willow	River is a recreational and agricultural asset. Cattai NP, Yengo NP, EEC's
Cattai Creek	Hills, Hawkesbury	Alligator Weed, Senegal tea, Salvinia, Water Hyacinth, Ludwigia sp.	Cattai NP, Mitchel Park, agricultural, recreational
Sydney Water pipeline – Warragamba to Prospect
