---

Hi Rosanna,

I assume this is really only for council reps to reply to, but just in case it is not RailCorps issues with WONS are;

- Brooms in the Blue Mts and Northern suburbs
- Madeira Vine everywhere in the inner more coastal areas of greater Sydney and spreading at an alarming rate.
- Small Localised infestations of Asparagus ferns

Regards,

Peter

**Subject:** REMINDER: The new WONS ~ info for you to complete

Hi all,

**Just a reminder that this info is due by this Friday 30th.  
 Even if you don't have time to complete all of the sheet this week, please highlight which of these WEEDS OF NATIONAL SIGNIFICANCE are of concern in your area of responsibility and the specific WONS co-ordinators can follow up with you later.**

Please send you info back to me.  
 And if you don't have any of these WONS species in your area of operation, please just reply back to me "N/A".

thanks,  
 Rosanna.

Hi all,

As discussed at the regional weed committee meetings last week & this week:

Please see attached information regrading the proposed new list of Weeds of National Significance.

- Powerpoint presentation with more info, photos and current distribution maps for each WONS relevant to Sydney region.
- Attached spreadsheet to complete for the WONS that are in your LGA / NPWS region / land that you manage.

**Please insert your name & contact details, and as much info as you can for columns D to M.** (ie for the relevant WONS found in your area)

**This info is really important - why?**

The Australian Government needs to make sure they have all of the info about where these WONS are, so it's really important that you spend a bit of time completing this spreadsheet.

The information you send will assist the WONS co-ordinators to identify possible containment lines, education resources needed, research gaps, needs for consistent legislation and development of bio control options (where possible).

WONS also attract grant funding such as the current Caring for Our Country program!

**Can you please discuss with the other weeds committee reps in your organisation and return this completed spreadsheet to me by Friday 30th March.**

Thanks,  
Rosanna.
