

Greater Sydney RWC Meeting 18: BUSINESS PAPER

Agenda Item 11	RSWMP MERI Reporting
ATTACHMENTS	1. Greater Sydney RSWMP MERI Report 2018-19
BACKGROUND	<p>The Greater Sydney RSWMP MERI Report 2018-19 has been completed using data collected from 20 LCA's, 5 state agencies and the Biosecurity Information System (BIS).</p> <p>10 LCA's did not report any data.</p> <p>The Report reports against the key performance indicators (KPI's) and MERI framework adopted by the RWC at meeting 15, in May 2019.</p> <p>A number of KPI's could not be reported because data is not collected or unable to be extracted from the BIS at the time of reporting. It is proposed to keep these KPI's for the time being and aim to improve or develop mechanisms to enable reporting.</p> <p>The 2018-19 report will form a baseline and assist in setting targets for future years. Some obvious areas for immediate improvement include:</p> <ul style="list-style-type: none">• Number of LCA's reporting MERI data.• % of LCAs submitting weed data to BIS, and• % of LCAs with proactive inspection programs <p>These can potentially become priorities to direct grant funds.</p>
FOR ACTION/DECISION/NOTING	Noting
DECISIONS REQUIRED BY RWC MEMBERS	The committee notes this business paper and attached report
